

Reply to Office Action dated November 28, 2005

Appl. No. 10/708,823
60655.8400**REMARKS**

Applicants reply to the Office Action mailed on November 28, 2005, within the shortened statutory period for reply. Claims 1-9 were pending and the Examiner rejects claims 1-9. In reply, Applicants amend claims 1-6 and 8-9, add claims 10-12, and address the Examiner's remarks. Support for the amendments may be found in the originally-filed specification, claims, and figures. No new matter has been introduced by these amendments. Reconsideration of this application is respectfully requested.

Double Patenting

The Examiner provisionally rejects claim 1 over claim 1 of co-pending Patent Application Serial No. 10/708,824. While Applicants respectfully disagree with this double patenting rejection, in the interest of compact prosecution, Applicants submit a terminal disclaimer, without prejudice, in compliance with 37 C.F.R. § 1.321(c). Applicants also assert that this provisional non-statutory double patenting rejection is based on the above-listed application, which is commonly owned with this application by assignee, American Express Travel Related Services Company, Inc.

Claim Rejections**§ 112 Rejections**

Claims 1-9 stand rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicants regards as the invention, regarding use of the term "proffering a biometric."

Reply to Office Action dated November 28, 2005

Appl. No. 10/708,823
60655.8400

Applicants have amended claim 1 to clarify that it is a "biometric sample" that is proffered to a biometric sensor. This amendment is supported in the specification in at least paragraphs [00231-00233]. Accordingly, Applicants request withdrawal of the rejection of claims 1-9 under 35 U.S.C. §112.

§ 102 Rejections

Claims 1-9 stand rejected under 35 U.S.C. §102(e) as being anticipated by U.S. Pat. No. 6,703,918 ("Kita"). Applicants respectfully traverse.

While Kita may disclose a portable information device with biometric security measures, the Kita reference does not teach or suggest a biometric security method comprising "proffering a biometric sample to a biometric sensor communicating with said system to initiate verification of said biometric sample for facilitating authorization of a transaction, wherein said verification includes determining whether said biometric sample is associated with a preset transaction limitation," as recited in independent claim 1. (emphasis added). Support for this amendment is found in the specification in at least paragraphs [00235-00238].

Accordingly, Applicants assert that claim 1 is patentable over the cited reference. Claims 2-9 variously depend from claim 1 and contain all of the elements thereof. Therefore, Applicants respectfully submit that claims 2-9 are differentiated from the cited reference at least for the same reasons as set forth above, in addition to their own respective features. Accordingly, Applicants respectfully request withdrawal of the rejection of claims 1-9.

New Claims

New claims 10-12 variously depend from claim 1 and contain all of the elements thereof. Therefore, Applicants assert that new claims 10-12 are differentiated from the cited

references at least for the same reasons as set forth above, in addition to their own respective features.

CONCLUSION

Applicants respectfully submit that the pending claims (12 total, 1 independent) are in condition for allowance. No new matter is added in this Reply. Reconsideration of the application is thus requested. The Commissioner is hereby authorized to charge any fees that may be required, or credit any overpayment, to Deposit Account No. 19-2814. Applicants invite the Examiner to telephone the undersigned if the Examiner has any questions regarding this Reply or the application in general.

Respectfully submitted,
